

WireCo WorldGroup Inbound Collect Routing Guide

This routing guide and shipping guide has been developed for domestic, North American suppliers who ship to WireCo WorldGroup, its subsidiaries and/or affiliates within the US.

All transportation costs, storage fees or other expenses incurred by WireCo WorldGroup because of the supplier's non-compliance with the terms and conditions of the routing guide shall be charged to the supplier. Additionally, any carrier detention charges will be charged back to the supplier.

Listed below are general instructions to follow when shipping merchandise to WireCo WorldGroup.

Do not split POs between shipments. All cartons associated with one PO must be on a single shipment.

POs cannot be mixed in a carton or master carton/repack.

All POs for all merchandising departments that are shipped on the same day to the same destination must be on a single Bill of Lading.

Expedited shipments: All priority shipment requests that require additional freight charges over and above normal service (such as air freight or expedited-ground) must be approved prior to shipping.

Suppliers with multiple ship origins must ship from the closest/most cost optimal to the WireCo WorldGroup destination on the purchase order. Failure to comply with this will result in supplier charge backs.

NOTE: WireCo WorldGroup will not pay any accessorial charges on prepaid shipments. Any charges such as notification, storage, re-consignment, inside delivery, sorting/ segregating, etc. will be the sole financial responsibility of the supplier.

The WireCo WorldGroup Core Carrier Program

All domestic suppliers who have collect freight terms **or** ship product Less-Than-Truckload to any WireCo WorldGroup location collect must use an approved core carrier to complete all shipments. For LTL shipments with collect freight terms please follow the state-to-state LTL carrier routing in the "Collect LTL Shipments" tab.

WireCo WorldGroup maintains a pool of preferred transportation providers, known as core carriers, to manage all shipment types, including Less-Than-Truckload (LTL), Full Truckload (TL), Flatbed (FB), and Small Parcel.

The use of core carriers will mutually benefit both parties by:

Providing the best overall value to WireCo WorldGroup and our suppliers

Reducing the number of carriers delivering to our facilities, thereby easing congestion within the receiving area

Consolidating shipment delivery

Compliance with this policy is required through the PO Process. Failure to comply could result in loss of business with WireCo WorldGroup, cancellation/renewal of pricing for supplies. Please use these guidelines to determine the appropriate carrier for each shipment. As changes to the core carrier pool occur, the guidelines on this site will be updated.

FOB Destination Terms

Freight terms are indicated on the WireCo WorldGroup PO. The majority of WireCo WorldGroup vendors are on FOB destination terms. Regarding FOB destination terms and Conditions, risk of loss and title transfer from the supplier to WireCo WorldGroup upon receipt and acceptance of the merchandise in good condition by WireCo WorldGroup at the designated final destination. Receipt and acceptance of the merchandise occurs when WireCo WorldGroup receives the goods on a carton or item-level basis into its inventory management system via PO Receipt or other process at the final destination.

Collect Shipments

When shipping LTL, the following guidelines must be used.

- For LTL shipments with collect freight terms, **please follow the state-to-Location LTL carrier routing.**
- Each LTL shipment must list weight, the NMFC Item number and correct freight classification on the Bill of Lading (BOL)
- All PO's for all merchandising departments that are shipped on the same day to the same destination must be on a single Bill of Lading.
- **LTL Shipments are defined as follows:**

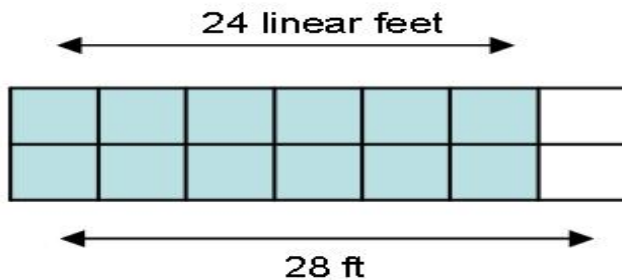

Any shipment to a single WireCo WorldGroup destination which occupies less than or equal to 24 linear feet of trailer space and falls within the below weight range:

Freight Class Range		Weight Range	
50	92.5	150 lbs	12,000 lbs
100	125	150 lbs	12,000 lbs
150	200	260 lbs	10,000 lbs
250	500	260 lbs	5,000 lbs

"Linear feet" example:
